REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the present invention relates to a cross-point memory array having a plurality of driver sets. The independent claims 1, 15, 21 and 27 recite a cross-point memory array having at least one x-direction driver set formed on the semiconductor substrate, each driver within the set drives at least one x-direction conductive layer, at least one y-direction driver set formed on the semiconductor substrate, each driver within the set drives at least one y-direction conductive layer, wherein the at least one x-direction driver set and the at least one y-direction driver set both use logic to drive isolated conductive array lines, and wherein at least one driver set is substantially underneath the cross-point memory array. The PRIOR ART fails to disclose or suggest such the cross-point memory array with a plurality of driver sets as described in the independent claims 1, 15, 21 and 27, therefore, claims 1-37 are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vu A. Le whose telephone number is (571) 272-1871. The examiner can normally be reached on M-F (7:00-3:30).
